Country: We make every effort to tailor the Young Living experience to different countries and languages. Please select yours here.

Sponsor vs. Enroller ID: If you were directed to this page by a Young Living member's link, this section is likely filled in for you. If you do not have this information, select the remaining option that best fits your circumstance.

Retail Customer vs. wholesale member: We are often asked about the difference between these two options, and there is a simple answer: If you sign up as a wholesale member, you receive a 24 percent discount on products, as well as access to our Essential Rewards program. Retail customers do not receive these benefits.

Social Security/Tax ID Number: Because members have the potential to earn income, Young Living is required to collect this information for tax purposes. We will not use it for any other reason.

Terms and Conditions: Make sure you read through and agree to Young Living's terms and conditions before you continue.

Username, Password, and PIN: Remembering your username, password, and PIN is important for future access. You'll need your username and password to log in to your account to order products and to access member-related information and tools. If you call our Customer Care Department, our representatives use your PIN to verify for security purposes that the account is yours. Once enrollment is complete, you will receive a Member ID number. We recommend that you write this number down and keep it in your records. You will need your Member ID if you sponsor a new member in the future. It can also be used as an alternate to your username.
